As COVID-19 spreads across conflict countries and becomes a global health security crisis, local, national, and international military forces should adopt a strong, robust approach to human security in order to better protect civilian populations faced with this combination of threats.

Linking Human Security and Health Security in the Age of ...

Human security is a human right; it refers to the security of people and communities, as opposed to the security of states. Human security recognises that there are several dimensions related to feeling safe, such as freedom from fear, freedom from want, and freedom from indignity. A people-centred approach to security has implications for how we carry out and understand conflict assessment, programme planning, implementation, and evaluation of peacebuilding initiatives.

Human Security | GPPAC

Therefore, national security becomes too sensitive an issue. It overwhelms and marginalizes all other critical human-centric securities including food, environmental, and energy. In fact, it is often used to justify all that which brings conflict, violence, dislocation and underdevelopment.

Human vs. National Security | global-e Journal

Human security acknowledges that as a result of downturns such as conflicts, economic and financial crises, ill health, and natural disasters, people are faced with sudden insecurities and deprivations. These not only undo years of development but also generate conditions within which grievances can lead to growing tensions.

The Alliance for Peacebuilding (AfP) program on human security works to achieve a people-centered security strategy, which is a more successful, cost-effective, and sustainable national security strategy than traditional approaches. The program opens channels of communication between the Pentagon and local civil society organizations (CSOs) working to build human security from the ground up through conflict prevention and peacebuilding.

Human Security — Alliance for PeacebuildingPeace

Conflict has been central to the human security crisis in Yemen. If there is any chance of alleviating the suffering in Yemen, then the first and most important step is to bring an end to the on-going conflict. After five years of conflict and with no end in sight, outright military victory seems highly unlikely.
