### Progress In Medical Virology Volume

Despite the recent proliferation of various biological publications there is ample justification for a review series on the medical aspects of virology. Such a publication should keep clinicians and clinical investigators informed of advances in fundamental virology and should summarize and correlate the literature of viral disease.

### Progress in Medical Virology. Volume I | JAMA | JAMA Network

This 15th volume on progress in medical virology is such a book. The articles are topical reviews that completely survey a variety of virological subjects and place them in perspective, without expending too many pages in technological detail except where necessary to understand the interpretation of cultural and serological data.

### Progress in Medical Virology | JAMA | JAMA Network

The essays in this third volume are devoted to serodiagnosis (Schmidt and Lennette); overwintering of arthropodborne virus (Reeves); fluorescent antibody methods (Poetschke); the search for antiviral drugs (Herrmann); Coxsackie and ECHO viruses (Gelfand); live virus vaccines for poliomyelitis, mumps, and measles ( Smorodintsev ); viruses and congenital malformations ( Blattner and Heys ); and ...
